LIST OF APPROVED PRODUCTS FOR USE IN PUBLIC WATER SUPPLY IN THE UNITED KINGDOM

All approved products must be used in accordance with the specific conditions of approval, listed against the product names in Parts A-E. In addition, the following general conditions of approval apply to all approved products:

1. That use is in accordance with an Instructions for Use document. Approval holders must provide drinking water suppliers with copies of the Instructions for Use Document that was considered by the Drinking Water Inspectorate (DWI) when approval was recommended.

2. That the approval of the Authorities is obtained on condition that there shall be:
   - no change in the formulation of the approved product, including change in the source or identity of raw materials
   - no change in the manufacturing process, including location of manufacture
   - no change in designation of the approved product
   - no change in name or ownership of the organisation holding the approval

3. That the producer shall ensure that the product is tested for conformity with its formulation, and the source or identity of its raw materials, at such intervals and by such persons, as may be determined by the Authorities. The results of such testing shall be sent to the Authorities.

4. If there is suspicion that any of the above is not being followed or has been changed then notify DWI Regulation 31 team who will investigate (reg31.enquiries@defra.gov.uk)

5. That the approval is still valid

Index by Product Name ......................................................................................... 80
PART A  CHEMICALS AND FILTER MEDIA

It is the responsibility of the drinking water suppliers to ensure that
(a) the method and manner of use; and
(b) the purity of these chemicals and products are such that the water treated meets the requirements of the relevant regulations. Where appropriate, additional specific conditions of approval are listed against the chemical or product.

Approval holders and water companies should be aware that products or substances that claim to have a biocidal effect or are used as biocides may require authorisation under the Biocidal Products Regulation. HSE is the UK competent authority for the Biocidal Products Regulation and so any queries about whether that legislation applies to a specific product or substance should be addressed to biocidesenquiries@hse.gov.uk

A.1  Flocculants and Coagulants

A.1.1  Products based on tannin

This section contains no products

A.1.2  Products based on polyacrylamide

For the products listed below the following conditions apply:
(i) no batch must contain more than 0.020% of free acrylamide monomer based on the active polymer content;
(ii) the dose must average no more than 0.25 mg/l and never exceed 0.50 mg/l of the active polymer;
(iii) an upper limit for the content of free acrylamide monomer must be stated by the supplier for every batch; and

Solenis UK Industries Ltd

**Magnafloc LT20**  
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use - Magnafloc 22S-DWI, LT20, LT25, LT27.  
IFU 001 Issue No.13 Issue Date 02/01/19  
Approval expiry date: 13 February 2022

A.4 Disinfestation, Disinfection or Cleaning Agents of Waterworks Apparatus and Distribution Systems

With effect from 1st October 2015 a policy change has been implemented to the requirement for regulatory approval of products and substances clearly intended to be used whilst plant/equipment is off line. These products or substances are normally flushed away or their concentration is reduced to a minimum, that gives rise to no, or negligible risk, to water quality, before the supply is resumed.

Since these substances and products are not intended to be introduced or applied to water intended to be supplied for domestic purposes they do not come within the scope of regulation 31 and approval is no longer required.

The current listings in section A4 below will however remain until the five year period of validity of the existing approval has expired. Some products, previously appearing in this section and that remain in the water, can now be found in section A9.

During the approval process there is no evaluation of a product’s effectiveness, only of its safety in use. An approval given in this section does not certify that the Authorities are satisfied that the product is effective, but only that it is safe for use in accordance with the Instructions for Use supplied.

The fact that a product is approved does not justify any claim about its effectiveness.

Permission or consent for disposal of any wastewater generated to a sewer or watercourse must be obtained from the relevant water Service Company, or Environment Agency in England and Wales or Scottish Environment Protection Agency (SEPA) in Scotland as appropriate.

Aquabiotics Pty Ltd

BoreSaver 1KL Pro

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Boresaver IKL Pro -Instructions for Use - Issue: Version 4.2. Issue Date: 23rd October 2009

A.6 Disinfectants for Emergency Use

Disinfectants for emergency use are no longer approved and listed under the requirements of relevant regulations. Guidance upon the choice and use of disinfectants in an emergency is provided in Advice Sheet 9 (http://www.dwi.gov.uk/drinking-water-products/advice-and-approval/Advicesheet9.pdf).

Approvals of previously listed disinfectants for emergency use have been revoked – see Information Letter 08/2008 (http://www.dwi.gov.uk/stakeholders/information-letters/2008/08_2008.pdf )

This section contains no products

A.7 Products Based on Traditional Chemicals

A.7.1 Traditional Chemicals

The following traditional chemicals (not currently covered by a specific appropriate BS EN) are considered by DWI to meet the requirements of the relevant regulations subject to the following condition:

The method of use and the purity of these products shall be such that, when used in the treatment of water intended for human consumption, the water so treated shall meet the appropriate requirements of the Water Supply (Water Quality) Regulations. See Reg 31 letter on the "Review of arrangements for approval of Traditional Chemicals" issued 6 August 2018 (http://www.dwi.gov.uk/drinking-water-products/faqs/Reg31Let_060818.pdf)

Gaffey Technical Services Ltd

**Sodium Hypochlorite generated by Hyprolyser Electrochlorination System**

**DWI 56/4/1341**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Hyprolyser 280, 560, 110, 2200 Electrolysis system for on-site hypochlorite generation. IFU Issue Date: Nov 2018; Issue No. IFUv1.1

(i) the method of use and the purity of the output of these products shall be such that, in the case of water for public supply, the water so treated meets the requirements of the relevant Regulations; and (ii) the treated water must not contain more than 700 µg/l chlorate.

**Approval expiry date:** 20 February 2024

Grundfos Holdings A/S

**Sodium Hypochlorite generated by Selcoperm**

**DWI 56/4/864**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: IFU v003

**Approval expiry date:** 23 March 2021

Lutz-Jesco GmbH

**Easychlorgen 280 – 2200 Electrolysis system for on-site hypochlorite generation**

**DWI 56/4/1369**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Easychlorgen 280 – 2200 Electrolysis system for on-site hypochlorite generation - IFUv1.1 Issued: 11/2018

(i) the method of use and the purity of the output of these products shall be such that, in the case of water for public supply, the water so treated meets the requirements of the relevant Regulations; and (ii) the treated water must not contain more than 700 µg/l chlorate.

Portsmouth Aviation Ltd

**ESOL**

**DWI 56/4/1173**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: PTN 1365-200719, issue: 2, issue date: 16/07/2015

**Approval expiry date:** 19 July 2020
A.7.3 **On-site generation of chlorine dioxide**

Products in this section are not fully covered by EN 12671 (chlorine dioxide). The following products must conform to the following conditions of use:

(i) the method of use and the purity of the output of these products shall be such that, in the case of water for public supply, the water so treated meets the requirements of the relevant Regulations; and

(ii) the combined concentration of chlorine dioxide, chlorite and chlorate shall not exceed 0.5 mg/l as chlorine dioxide in the water entering supply.

**Grundfos Holdings A/S**

**Oxiperm ISIA (with U-type reactor)**  
DWI 56/4/1236

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: IFU Version 1, 2016
- **Approval expiry date:** 30 November 2021

**International Water Solutions Ltd**

**Chlorine Dioxide generated by Xziox**  
DWI 56/4/998

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Issue 1.8 Dated 27/01/16
- **Approval expiry date:** 31 January 2021
A.8 Disinfection Agents

During the approval process there is no evaluation of a product’s effectiveness, only of its safety in use. An approval given in this section does not certify that the Authorities are satisfied that the product is effective, but only that it is safe for use in accordance with the Instructions for Use supplied. The fact that a product is approved does not justify any claim about its effectiveness.

**Bournemouth and West Hampshire Water Plc**

**Permasect WT for use in application to slow sand filters**

**DWI 56/4/720**

**Conditions of Approval:**

(i) water undertaker to notify DWI 7 days before start of dosing;
(ii) the dose must not exceed 100 µg/l and the residual must not exceed 0.1 µg/l in the treated water;
(iii) the period of dosing shall be kept to a minimum and must never exceed more than once in a 28 day period;
(iv) prior to dosing, the water undertaker must establish that the filter bed to be dosed is intact and free from defects that would permit short-circuiting of normal flow patterns;
(v) monitoring of permethrin in the final treated water entering supply and in water leaving each treated filter must be carried out at daily intervals during the first 7 days following commencement of dosing;
(vi) to submit to us no later than 3 days after cessation of each application, the records of prefilter checks, product batch number, time and amount of dose and monitoring results for each filter at every site and;
(vii) permission or consent for disposal of any wastewater generated to a sewer or water course must be obtained from the relevant water service company or Environment Agency in England and Wales or Scottish Environment Protection Agency (SEPA) in Scotland, as appropriate.

Approval expiry date: 23 August 2020

List of approved products for use in public water supply in the United Kingdom

**Dyka B.V.**

**Dyka Grey PVC-U Pipe NGS**

Approval expiry date: 4 October 2021

**Dyka S.A.S.**

**Bi-OROC**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: BI-OROC PN16 PVC-O Technical Specifications Dated: 14/05/2018; Issue Number: V0

Approval expiry date: 13 October 2021

**George Fischer Sales Ltd**

**GF DEKADUR PVC-U pressure pipe**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue No 2, 13 June 2016

Approval expiry date: 26 April 2022

**GF PVC-U Inch Pipe**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue No. 1, 27 July 2016

Approval expiry date: 31 January 2023

**Molecor Tecnologia SL**

**TOM PVC-O Pipe**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: TOM PVC Orientated Pipe (PVC-O) Information for Use Document. Edition: 1 January-14/ Revision 1

Approval expiry date: 12 June 2024

**Wavin Ireland Ltd**

**Aquaforce (with non-lead stabiliser)**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Wavin Aquaforce Instructions for Use. Issue number 04 April 2004

Approval expiry date: 13 February 2022
B.1.4 Acrylonitrile-butadiene-styrene copolymer (ABS)

**Durapipe UK**

*Durapipe ABS Pipe Type S*

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: ABS Pipes And Fittings Made From Durapipe ABS Type S, GRET ABS Material Issue 7 Date 24/6/2011
- **Approval expiry date:** 8 August 2021

**George Fischer Sales Ltd**

*GF ABS pressure pipe*

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Instructions for Use (IFU) - GF ABS Pressure Pipe, Issue date: 08 January 2015; Issue No: 1
- **Approval expiry date:** 29 January 2025
B.1.5 Polyethylene terephthalate (PET)

This section contains no products.

B.1.6 Glass reinforced plastic (GRP) pipes

Future Pipe Industries B.V

Wavistrong Series

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use Wavistrong Glassfibre Reinforced Epoxy (GRE) Pipe Systems. Issue No: IFU DW FPI BV Version no: 2. Date of Issue 22/2/2011

Approval expiry date: 26 February 2022

B.1.7 Cement mortar lined pipes

For Products in this section, the following conditions apply:

Before connection to the supply, the water undertaker or their appointed agent, must carry out tests to establish that migration from the cement mortar lining will not cause a contravention of the upper prescribed concentration for hydrogen ion in the relevant Regulations.

B.1.7.1 Cement mortar lined pipes without seal coat

Duktus

Duktus Ductile iron pipes with cement mortar lining for the carriage of Drinking Water

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use- Duktus Ductile Iron pipes with cement mortar lining for the Carriage of Drinking Water. Issue No: 01/2010. Issue Date: 20/05/10

Approval expiry date: 22 September 2020

Electrosteel Castings Ltd

Electrofresh Ductile Iron Pipe

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use for Electrofresh Pipes at Site

Work Instruction: WC-04-02

Issue No: 03 Rev. C Issue Date: 25.02.2016

Before connection to supply, the water undertaker or their approved agent, must carry out tests to establish that migration from the cement mortar lining will not cause a contravention of the upper prescribed concentration for hydrogen ion in the relevant regulations.

Approval expiry date: 1 August 2021
Erciyas Celik Boru Sanayi A.S

Erciyas Steel Water Pipe – Cement Lined

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instruction For Use. Erciyas Pipeline Systems Steel Water Pipes lined with CEMENT. Document number: TA-04-13, Revision: 2. Date of Issue: 1/02/12

Approval expiry date: 11 December 2021

European Pipeline Group

European Pipeline Group Svobodny Sokol Ductile Iron Pipe

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Edition 2 dated 1/7/2013

Approval expiry date: 15 August 2023

JINDAL SAW GULF LLC

JSGL-JAL-1A

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Information for use document (JSAW-JAL-1A) Ductile iron pipes to convey raw water, water during treatment, treated and potable water with or without pressure’ Issue No.: 1 Issue Date: 15/09/2013

**Stainless Steel pipes, Stainless Steel Tube, Stainless Steel Fittings**

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Issue Number 1, Issue date 26th May 2016
- **Approval expiry date:** 22 June 2021
Ross-shire Engineering Ltd

**Stainless steel process pipework systems**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue: Information for Use Drinking Water Stainless Steel Process Pipework Systems. Issue No: 2 Issue Date: 23-06-16

Approval expiry date: 1 September 2021

Specialist Welding Services Ltd

**Stainless Steel Tanks and Pipework**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Version 1.0 Revision C (Dated: 09 August 2019)

Approval expiry date: 15 August 2024

Staptina Engineering Services Ltd

**Staptina Bespoke stainless steel fabrications: Pipework, Baffles, Troughs, Tanks, Support and Access systems**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: 24838IFU 12 June 2013

Approval expiry date: 31 March 2024

Tema Engineering Limited

**Stainless Steel Pipework, Tanks and Vessels for Water Use**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue No:01; Issue Date:25/07/2019

Approval expiry date: 6 October 2024

Vessco Engineering Ltd

**Fabricator of Bespoke Stainless Steel Products: Pressur Vessels, Tanks and Pipes**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue 1, Rev 1: 24 January 2019

Approval expiry date: 20 February 2024

Yorkshire Stainless Ltd

**Stainless Steel Pipes, Tubes, Fittings and Flanges**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Stainless Steel Pipes, Tubes, Fittings and Flanges. Issue 1 Date: 06/06/2019

Approval expiry date: 17 July 2024
B.1.11  Coated pipes suitable for total immersion in water

Saint-Gobain PAM UK Ltd

System CL  

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: SAINT GOBAIN PAM UK. Instructions for Use Document for System CL Pipes. Issue Number 9. Date: 25th May 2009

Before connection to the supply, the water undertaker or their appointed agent must carry out tests to establish that migration from the cement mortar lining will not cause a contravention of the upper prescribed concentration for hydrogen ion in the relevant Regulations.

Approval expiry date: 5 May 2023

System XL  

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: SAINT GOBAIN PAM UK. Instructions for Use Document for System XL. Issue number 8. Dated: 1st January 2013

Before connection to the supply, the water undertaker or their appointed agent must carry out tests to establish that migration from the cement mortar lining will not cause a contravention of the upper prescribed concentration for hydrogen ion in the relevant Regulations.

Approval expiry date: 5 May 2023
B.1.12 Pipes coated with a factory applied polyolefin

Saint-Gobain PAM UK Ltd
Blutop

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue Number 2. Date: 1st January 2009
Approval expiry date: 20 February 2025

B.2 Well Casings, Screens and Rising Mains

Angus Flexible Pipelines
Angus Wellmaster Flexible Rising Main

Prior to use the water supplier carries out a risk assessment to provide for a suitable flushing regime validated, where appropriate, by monitoring when the product has been out of supply for a period of time.
Approval expiry date: 9 October 2021

Aqseptence Group SAS
Johnson Screen, Casing & johnson Riser Pipe and Accessories

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Aqseptence Group SAS – Johnson Screen, Casing and Johnson Riser Pipes Issue 2 Dated 17th April 2019
Approval expiry date: 22 June 2024

Boode UK Ltd
Boode Waterwell Systems PVC Screen and Casing

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Boode Waterwell Systems PVC Screen and Casing. Instructions for Use. Issue 2 - 1.1.2018
Approval expiry date: 9 July 2023

GOLAN Plastic Products Ltd
PEXGOL

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue No. 1. Dec 2016
Approval expiry date: 17 February 2023
Stuwa-Konrad Stükerjürgen GmbH

**PVC Screens, Casings, Fittings and Accessories**  
**DWI 56/4/1061**

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: IFU approval STÜWA – Konrad Stükerjürgen GmbH. PVC screens and casings. Issue date = 07/19/2012. Issue number = 3
- **Approval expiry date:** 13 December 2023

**Stainless Steel Screens, Casings, Fittings and Accessories**  
**DWI 56/4/1060**

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: IFU approval STÜWA – Konrad Stükerjürgen GmbH. Stainless steel screens and casings. Issue date = 07/19/2012. Issue number = 3
- **Approval expiry date:** 23 July 2022

**STUWA Stainless Steel Riser Pipes**  
**DWI 56/4/1077**

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: IFU Approval STÜWA – Konrad Stükerjürgen GmbH. Stainless Steel Riser Pipes. Issue 2 Dated 29/11/2012
- **Approval expiry date:** 11 September 2022
B.3 Products for Conveyance of Water -Emergency Use

For products in this section the following condition applies:

These products are primarily intended for emergency use and are approved for limited use only and may not be permanently installed in, or used in conjunction with any system for treating or distributing public water supplies. If the proposed use will extend beyond a 90 day period of use on any one occasion, then advice from the DWI should be sought before installation and use.

NOTE: some of these products may be suitable for limited use during planned maintenance. In this case it is the responsibility of the water supplier to undertake a thorough risk assessment of the proposed use, including fitness-for-purpose and why other products, already fully approved under the relevant regulations cannot be used. Use of any of these products during planned maintenance shall be in accordance with the condition set out above.

B.3.1 Hoses

**AAH Europe Hose Company Ltd (T/A Snap-tite)**

Snap-Tite TE Range – Blue Hose

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU LAYFLAT POTABLE WATER HOSE FOR EMERGENCY USE - ‘SNAP-TITE TE HOSE RANGE’ Rev.1 Date: 31/10/18

Approval expiry date: 6 July 2024

**Angus Flexible Pipelines**

Super Aquaduct

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: INSTRUCTIONS FOR USE (IFU) DOCUMENT. ANGUS SUPER AQUADUCT. Document: ANGUS/IFU/SA. Issue: 006. Dated: September 2016

(i) after disinfection the product is flushed for its entire length before being brought into service; (ii) when in use the main is kept continually in flow; (iii) the product is primarily intended for emergency use and is approved for limited use only and may not be permanently installed in, or used in conjunction with any system for treating or distributing public water supplies. If the proposed use will extend beyond a 90 day period of use on any one occasion, then advice from DWI should be sought before installation and use.

Approval expiry date: 9 October 2021
B.3.2 Bowsers/tanks

**Enduramaxx Ltd**

**Enduratank**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Enduratank Potable Water Storage Tanks, Issue number: 1, Issue date 27/10/16

The product is approved for emergency use only and may not be permanently installed in any system for treating or distributing public water supplies. If the proposed use will extend beyond a 90 day period of use on any one occasion, then advice from the DWI should be sought before installation and use.

**Approval expiry date:** 9 April 2022

**JFC Manufacturing Co. Ltd**

**AquaCube Emergency Water Tank**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Instructions for Use Revision 001, May 2016

**Approval expiry date:** 3 October 2021

**Trailer Engineering Ltd**

**Emergency Drinking Water Bowsers**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Drinking Water Bowser Operating Manual, Vol. 8, dated October 2004

**Approval expiry date:** 28 October 2024

**Western**

**Aquastax and Polytank Emergency bowsers/tanks**

C.1  In-situ Installed (tubular) pipe linings

Aqualiner Ltd

Water Pipe Lining

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use: Water Pipe Lining. Version No 5 Issue Date: 21 October 2010

Approval expiry date:  6 November 2021

C.2  In-situ applied Pipe Coatings

In-situ applied lining products approved for use by the Authorities for the relining of existing water mains/pipes must be applied in accordance with strict operational requirements as documented in the Water Industry Information & Guidance Note IGN 4-02-02  http://www.water.org.uk/home/member-services/wis-and-ign/archived-documents/ign-4-02-02.pdf  "Code of Practice: In-situ resin lining of water mains” and the Water Industry Specification WIS 4-02-01 http://www.water.org.uk/home/member-services/wis-and-ign/archived-documents/wis-4-02-01-v2.1---march-2009.pdf  "Operational Requirements: In situ resin lining of water mains”.

The coatings listed in this section have been subject to review by DWI (including testing), on the basis of their proposed use with inert substrates such as metallic or cement based structures (or as specified in the manufacturer’s Instructions for Use (IFU)), and upon the detailed application and curing requirements set out in the IFU. They have not been evaluated for any other aspect, such as fitness for purpose.

For use with other non-metallic non-cementitious materials, such as plastics, other coatings/linings, and rubbers, a specific application for approval would be required for use of the coating with a specific substrate.

C.2.1  Coatings based on epoxy resins

These products must be applied by a certified contractor.

Radius Subterra – a part of RadiusPlus Ltd

Subcote 173/90

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Subterra Subcote 173/90 Issue 10. Date 22 Sept 2017

Approval expiry date:  4 October 2022
C.2.2 Coatings based on polyurethane

These products must be applied by a certified contractor.

3M United Kingdom

- **Approval expiry date:** 1 October 2022
C.3 Site applied coatings for water retaining structures

The products listed below in this section, in addition to being approved for site applied coatings for water retaining structures, are suitable for use in large diameter mains where they can be applied by hand e.g. brush or spray.

The coatings listed in this section have been subject to review by DWI (including testing), on the basis of their proposed use with inert substrates such as metallic or cement based structures (or as specified in the manufacturer’s Instructions for Use (IFU)), and upon the detailed application and curing requirements set out in the IFU. They have not been evaluated for any other aspect, such as fitness for purpose.

For use with other non-metallic non-cementitious materials, such as plastics, other coatings/linings, and rubbers, a specific application for approval would be required for use of the coating with a specific substrate.

C.3.1 Coatings based on epoxy resins

The following conditions apply unless otherwise indicated:

(i) the minimum cure time is 16 hours; and
(ii) the minimum cure temperature is 3°C.

3M United Kingdom

3M Scotchkote Epoxy Coating 162PWX plus 3M Scotchkote Epoxy Coating 162PW Stripe Coat

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions For Use Document 10T – E. Coating System, 3M Scotchkote Epoxy Coating 162PWX. Issue No: 7 Issue, Date: March 2015

This product must be cured for a minimum of 21 days at a minimum temperature of 7°C days or in accordance with the cure curve provided in the manufacturer’s instructions for use document.

Approval expiry date: 24 August 2020

Radius Subterra – a part of RadiusPlus Ltd

- **Issue:** 2, Date: 20/10/2016
- **Approval expiry date:** 27 December 2021

### Penetron UK Ltd

#### Penecrete Mortar

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Instruction for Use PENECRETE MORTAR CRYSTALLINE WATERPROOF MORTAR. Issue No:2, (Dated: 12/02/2014, Re-issued: 05/03/2017)
- **Approval expiry date:** 1 October 2024

#### Penectron Crystalline Waterproof Coating

- **Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Instruction for Use PENETRON CRYSTALLINE WATERPROOF COATING. Issue I/2, (Issue date: 19/05/2014, Revision date: 09/02/2017)
- **Approval expiry date:** 1 October 2024
Sika Ltd

Sika Monotop 610/615 Concrete Repair System

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Sika Mono Top – 615 Cementitious High Build Concrete Repair Mortar. Issue No: 001. September 2007

The product must be cured in accordance with the cure curves provided in the IFU. The required cure time can be calculated by the user from the minimum daily temperature at site of application. If the temperature cannot be measured and recorded then a minimum cure period of 21 days at a minimum substrate temperature for application is 5°C.

Approval expiry date: 12 March 2022

Sikadur Combflex SG jointing system using Sikadur 31 DW

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Sikadur Combflex SG Jointing system Issue No: 006 October 2011

The minimum cure temperature is 7°C for a minimum cure time of 21 days. At temperatures greater than 7°C the product must be cured in accordance with the cure curve provided in the Instructions For Use. The required cure time can be calculated by the user from the minimum daily temperature which must be recorded at site.

Approval expiry date: 3 October 2021

Sikadur Combflex SG jointing system, using Sikadur 31 DW Rapid

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Sikadur Combflex SG Jointing System, using Sikadur 31 DW Rapid. Issue No: 01, September 2013

Approval expiry date: 4 February 2025

Vandex International Ltd

CEMLINE STON

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: VXI IFU UK CEMLINE STON, 12.2015 / 1

Approval expiry date: 2 December 2023

Approval expiry date: 9 March 2025

**Leinster Range of Towers**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Installation and Maintenance Manual For Leinster Range Of Thermoplastic Tanks For Drinking Water and Raw Water to be Treated for Drinking Water

Issue No. 7 Date: 14th August 2019

Approval expiry date: 9 March 2025

**Staptina Engineering Services Ltd**

**Staptina Bespoke stainless steel fabrications: Pipework, Baffles, Troughs, Tanks, Support and Access systems**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: 24838IFU 12 June 2013

Approval expiry date: 31 March 2024

**E.2 Underdrains**

For some products, including underdrains, Section 3.4 of Advice Sheet 7 indicates that products constructed from clay can be used without approval subject to the water supplier carrying out a risk assessment for suitability of the product and its possible impact on drinking water quality

**Black & Veatch**

**K Filter Floor**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Installation and Test Procedure for K-Type Filter Floors.

Approval expiry date: 11 August 2020

**Plasmor Ltd**

**Plasmor E and U Blocks**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Plasmor E Blocks Instructions for Use . Issue 2. Issue Date: 22/12/2010

Approval expiry date: 5 March 2022
Xylem Water Solutions Zelienople LLC
Leopold Type XA Underdrain and I.M.S. 1000 Media Retainer
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Type XA (TM) Underdrain Flume Installation, Operation and Maintenance Manual
Date: 8th Aug 2017 Issue No: 2
Approval expiry date: 16 June 2024

Leopold Type XA Underdrain and I.M.S. 200 Media Retainer
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Type XA™ Underdrain Flume Installation, Operation and Maintenance Manual
Date: 8th Aug 2017 Issue No: 2
Approval expiry date: 16 June 2024

Leopold Type XA Underdrain and I.M.S. Cap
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Type XA™ Underdrain Flume Installation, Operation and Maintenance Manual
Date: 8th Aug 2017 Issue No: 2
Approval expiry date: 16 June 2024

E.3 Pressure vessels

A J Metal Products Ltd
Pressure Vessels
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU-1 A J METALS VESSELS FOR DRINKING WATER. Issue date: 29/11/19, Issue No: 1 Document No: AJMP IFU 001
Approval expiry date: 10 December 2024

Barr + Wray Ltd
Barr + Wray Stainless Steel Media Filter
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU Issue No: 1, 20 July 2016
Approval expiry date: 21 November 2021

Charlatte Reservoirs
Hydrochoc Butyl Bladder Surge Vessel
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Commissioning General Instructions for Hydrochoc Butyl Bladder Surge Vessel for Clear Water. Issue No: 2 Date of Issue: 2nd Nov 2016
Approval expiry date: 6 April 2022
CPE Pressure Vessels

CPE Pressure Vessels-304L and 316L Stainless Steel

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU-01 Rev 3 06/03/2013

Approval expiry date: 25 March 2024

Quantum Engineering Developments Ltd

Quantum Pressure Vessels- 304L

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU – 01, Rev D Issue date 31/01/2019

Approval expiry date: 30 March 2024

Quantum Pressure Vessels- 316L

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU – 01, Rev D Issue date 31/01/2019

Approval expiry date: 30 March 2024

E.4 Other Products used for the treatment of water

AJ Engineering and Construction Services Ltd

Stainless Steel Pipework and Fabrications

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Stainless Steel Pipework and Fabrications for water use. Issue Number: WO41, Issue date: 04/08/2016

Approval expiry date: 19 September 2021

AMCON Europe s.r.o

Volute Dewatering Screw Press

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Volute Dewatering Press ES-CE-DW series Instruction Manual <Operation> (Ver.DW1.01) 15.06.2019

Volute Dewatering Press ES-CE-DW series Instruction Manual <Transportation and Installation> (Ver.DWT1.00) 15.06.2019

Supernatant from the press should either be returned to the head of the works or run to waste.

Approval expiry date: 15 October 2024

Bridges Electrical Engineering Ltd

Bridges in-house fabricated stainless steel pipe spools and products

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Bridges in-house fabricated stainless steel pipe spools and products, Issue 1 22/03/17

Approval expiry date: 14 May 2022
Colloide Engineering Systems Ltd

Lamella Separator Package (LSF)  
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: 90002-1502 B Date of Issue 10/02/2015  
Approval expiry date: 23 February 2025

Craley Group Ltd

Atlantis Hydrotec - T&M Series  
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Atlantis HYDROTEC M-Series Instructions for Use – UK  
Issue Date: Jan. 2019; Revision No. 007  
Atlantis HYDROTEC T-Series Instructions for Use – UK  
Issue Date: Jan. 2019; Revision No. 005  
Approval expiry date: 29 May 2024

ENEXIO 2H Water Technologies Ltd

TUBEdek FS41.50/84 PP  
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Information for Use Document. TUBEdek Lamella Separators Type FS41.50PP & FS41.84PP. Version 1.5 April 2017  
Approval expiry date: 4 July 2022

Flex EJ Ltd

Expansion Joint  
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Stainless Steel Expansion Joints, Drinking Water Expansion Joints, Instructions for Use, Revision A, Issue 1, Date of issue: 10.10.2019  
Approval expiry date: 28 November 2024

Forbes Technology Ltd

Cheetah Tower Packings  
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: QA412 – Cheetah Pall Rings – Instructions for Use Manual. Issue No. 6 Dated 07/03/2019  
Approval expiry date: 28 October 2024

Homer Burgess Ltd

Tanks and associated Pipework, Weir Plates and Baffle Plates manufactured from Stainless steel suitable for use with drinking water  
Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Homer Burgess Ltd., Manufacturer’s official use instructions for Stainless Steel Products in contact with Drinking Water.. Issue Number Rev: 1 26/01/2016  
Approval expiry date: 22 May 2023
Jacopa Ltd

**Jacopa Ltd / Nordic Water Lamella Plate Separators**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Jacopa Ltd / Nordic Water Products Lamella Plate Separators Issue No.01 Date of issue: 3rd January 2020

Approval expiry date: 30 July 2023

**Stainless Steel DAF**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Aug 2015 V005

Approval expiry date: 19 August 2020

Meurer Research Inc

**Inclined Plate Settler System**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Meurer Research Inc Plate Settler System Ref Issue Number: IFUPS001 Date: 03/06/2015

Approval expiry date: 6 July 2020

PAX Water Technologies Inc

**PAX Water Mixer (PWM400/500/600)**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use PAX Water Monopod Mixer (PWM100 and 150) and PAX Water Mixer (PWM400/500/600)

Issue Date: December 9th, 2019; Issue No.: Revision 2

Approval expiry date: 27 October 2024

Pontoon Work Ltd

**Modular Pontoon**

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Pontoonworks: Pontoon solutions for working on clean water sites

Issue Date: 2nd January 2018; Issue Number: 03

This product is approved for limited use during planned maintenance and may not be permanently installed. If the proposed use will extend beyond a 90 day period of use on any one occasion, then advice from the DWI should be sought before installation and use. NOTE: It is the responsibility of the water supplier to undertake a thorough risk assessment of the proposed use, including fitness-for-purpose. Use of this product during planned maintenance shall be in accordance with the condition set out above.

Approval expiry date: 26 July 2023
Power Plastics Ltd

**Power Plas ® BC850 Baffle Curtain**

- **DWI 56/4/1350**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: PowerPlas BC850 Baffle Curtain - For use in water for human consumption

**Issue No.:** 1.0; **Issue Date:** February 2019

**Approval expiry date:** 9 October 2024

PWN Technologies

**Suspended Ion Exchange (SIX)**

- **DWI 56/4/1171**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Instructions for Use for the SIX Technology by PWN Technologies. Dated: 15-Sep-15. Issue: 1.3

This approval does not include any ion exchange resins.

**Approval expiry date:** 29 September 2020

Sensor (UK) Ltd

**Sensorline (Stainless steel)**

- **DWI 56/4/1066b**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: SENSORLINE – PE GEOMEMBRANES (IFU VERSION 4.9)

**Issue date:** 9 November 2015

**Approval expiry date:** 19 March 2023

Siltbuster Process Solutions Ltd

**Dissolved Air Flotation unit**

- **DWI 56/4/1116**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: SBAN10571_R3_Rev3

**Approval expiry date:** 6 November 2020

Staptina Engineering Services Ltd

**Staptina Bespoke stainless steel fabrications: Pipework, Baffles, Troughs, Tanks, Support and Access systems**

- **DWI 56/4/567c**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: 24838IFU 12 June 2013

**Approval expiry date:** 31 March 2024

SUEZ Water Technologies and Solutions Hungary Kft

**Stainless Steel Products**

- **DWI 56/4/1371**

**Conditions of Approval:** Use of the product must be in accordance with the Instructions for Use: Instructions for Use Document for the Supply of Stainless Steel Piping, Tanks and other Equipment for use in the Public Water Supply in the UK

**Issue Date:** 24 June 2019; **Issue No.** UKDWI/SSP/Revision 0

**Approval expiry date:** 17 July 2024
**List of approved products for use in public water supply in the United Kingdom**

**Tema Engineering Limited**

**Stainless Steel Pipework, Tanks and Vessels for Water Use**

- Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue No: 01; Issue Date: 25/07/2019
- Approval expiry date: 6 October 2024

**Veolia Water Technologies UK**

**Greca Lamella Plates**

- Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU Rev A
- Approval expiry date: 14 March 2022

**Package Actiflo and Multiflo**

- Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: IFU, VWT/ASMS/S4, Issue 1, Jan 2017
- Approval expiry date: 26 April 2022

**Vessco Engineering Ltd**

**Fabricator of Bespoke Stainless Steel Products: Pressure Vessels, Tanks and Pipes**

- Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Issue 1, Rev 1: 24 January 2019
- Approval expiry date: 20 February 2024

**WEARS Australia**

**ResMix Vital**

- Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Operation and maintenance Manual Resmix Vital Surface Mounted Destratification System Version 2.1 Issue date 24 September 2019
- Approval expiry date: 9 April 2024

**Western Carbons**

**Stainless Steel Floor Plates, weirs, pipework and tanks**

- Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Western Carbons Stainless Steel Products. Issue date: November 2017; Issue number: Version 1.0
- Approval expiry date: 18 February 2023

**Wester Carbons Porous Block**

- Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Instructions for Use (IFU) - Western Carbons Porous Block Issue Date: August 2017, Issue No: Version 1.0
- Approval expiry date: 25 March 2023
Xylem Water Solutions Zelienople LLC

Leopold Ari Scour System

Conditions of Approval: Use of the product must be in accordance with the Instructions for Use: Air Scour System AHP-IFU-00 Issue date: 12/13/16 Issue number: R01

Approval expiry date: 5 March 2022
