

## Drinking Water Inspectorate Presentations in 2005

Several inspectors are experts in the field of drinking water treatment, distribution, quality, security and regulation. The Inspectorate participates in conferences and presents to students and bodies on drinking water issues.

The following table illustrates events where Inspectors made presentations in 2005. In addition to the presentations lists, Inspectors routinely attend water company liaison and CCWater (Consumer Council for Water) meetings.

<b>Presentations by the Inspectorate 2005</b>
