To: Day to Day contacts of Water and Sewerage Companies, Water Companies and licensed water suppliers in England and Wales, and local authorities

WORLD HEALTH ORGANISATION - GUIDELINES FOR DRINKING WATER QUALITY – 4TH EDITION

2. The Drinking Water Inspectorate fully endorses the WHO Water Safety Planning approach to the management of drinking water supplies. It advocates that water companies’ and licensed water suppliers’ Regulation 27\(^1\) and Regulation 28\(^2\) risk assessment methodology should be based on a thorough understanding of the WHO Guidelines.

3. The Inspectorate advises that local authorities should develop full understanding of the WHO Guidelines to support carrying out Regulation 6\(^3\) risk assessments.
